*New Ad Campaign Announcing Selection of World's Most Powerful Defragger Rolls Out in April*

**GAITHERSBURG, MD – March 15, 2005** – Raxco Software, the worldwide leader in disk defragmentation software, announced today that its PerfectDisk<sup>®</sup> has been selected by the SUBWAY<sup>®</sup> restaurant chain for enterprise-wide defragmentation management.

The SUBWAY<sup>®</sup> restaurant chain is the world's largest submarine sandwich franchise and second in size only to McDonald's<sup>™</sup>. The restaurant chain is participating in a Raxco advertising campaign announcing the use of PerfectDisk starting in April.

PerfectDisk proactively prevents workstation and server problems associated with the fragmentation of files across the system disk by defragmenting both files and free space in a single pass. The software is also the first defragmentation utility certified by Microsoft<sup>®</sup> for Windows<sup>®</sup> 2000 and Windows Server<sup>™</sup> 2003, and is fully-integrated with Microsoft's Active Directory<sup>®</sup> services.

“The SUBWAY restaurant chain's attention to taste, quality, nutrition and service has made it a top global franchise business,” said Joe Abusamra, vice president of operations at Raxco Software. “The company also knows how to use and deploy the best in world class technology to keep their business performance-driven and moving fast,” he added. “We are especially pleased that the chain's corporate headquarters is participating in our ‘100% Fat-Free’ ad campaign.”
